Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 June 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

FINAL REJECTION

Status of the Claims

Claim 5 is objected to as containing allowable subject matter.

Claims 1, 4, 6-10, 14, 16-23, 28-29 and 32-35 are rejected under 35 USC §102.

Claims 2, 3, 11-13, 15, 24-27 and 30-31 are rejected under 35 USC §103.

Rejections under 35 USC §102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 4, 6-10, 14, 16-23, 28-29 and 32-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Westerinen (United States Patent Application Publication 2004/0088589 A1). See previous Official Action.

Rejections under 35 USC §103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2113

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 3, 11-13, 15, 24-27 and 30-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over the prior art as shown in the previous rejection.

Response to Applicant's Arguments

Below the Examiner responds to some of the various arguments.

First Applicant argues Westerninen discloses saving as the last state. Clearly, as the system must then enter a reduced/off power state, the save state can not be the last state in the system.

Applicant then continues to argue about the exact timing of claim 1 in matter not required by the claims.

Applicant then argues claim 8, arguing a number of issues not explicitly required by the claim.

In arguments regarding claim 14, Applicant argues the prior art contains as the saving in the last step then, then proceeds to describe the prior art powering down. Clearly, then saving is not the last state, if the hibernation mode is not in full effect.

Applicant continues for seven addition pages making assertions counter to common sense, or describing the claims in a detail not required and in some cases not even supported by the specification. The Examiner is simply unable to comprehend the path of logic of these arguments as either, claim limitations or an understanding of basic engineering fundamentals are missing.

Final Disposition

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

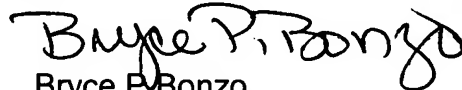

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryce P. Bonzo whose telephone number is (571)272-3655. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Beausoliel can be reached on (571)272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
